YOURS

Yours to keep

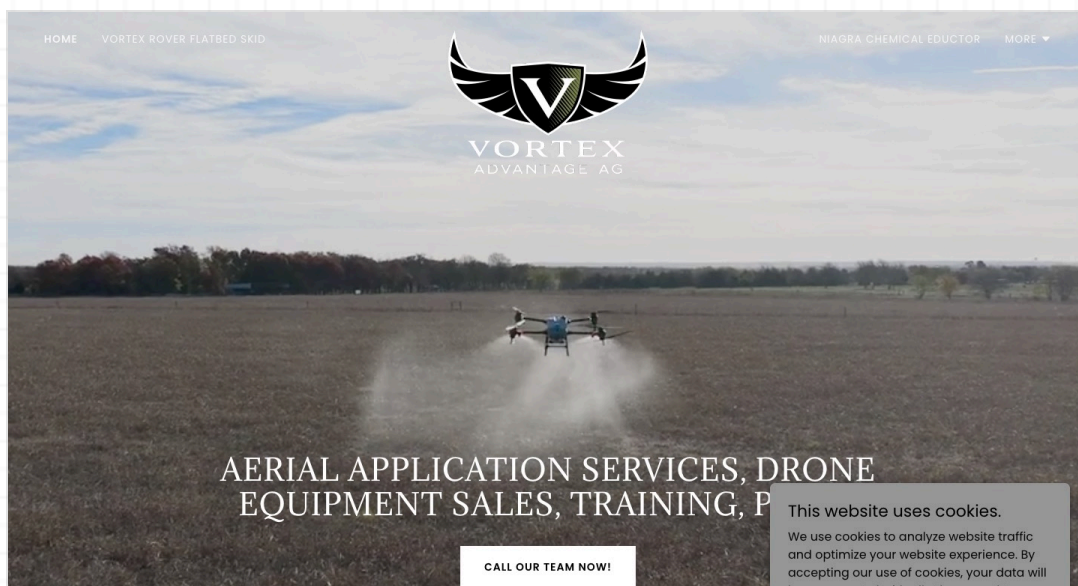

site and domain in your name

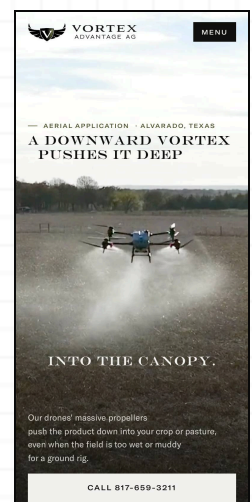

01 WHERE WE STARTED

What we built it around.

- 01 **A downward vortex pushes it deep into the canopy.**
Your homepage explains your own name. Option 1 runs your J150 footage full screen and drives that sentence down the frame, so the last line lands in the spray.
- 02 **Designed and built by drone operators, for drone operators.**
From your Rover page. Option 2 lays your Rover out like a build sheet, your own photos of the truck and the upper flight deck, with a quote one tap away.
- 03 **Better yet, meet with us in person!**
Your own invitation. Option 3 puts Jnani and Casi beside the drone you sell, with call or text right under it.

06 QUESTIONS

The usual questions.

01 Will moving hurt my Google ranking?

We move it carefully. Every page address on your current site keeps working or forwards to its new page, and your titles and business details carry over, so nothing Google already knows about breaks. The new site is fast and built for phones first, which Google rewards. We don't promise rankings.

02 Is it secure?

Yes. No WordPress or plugins to keep patching, modern hosting with SSL, and every version saved, so any change can be rolled back.

03 Who owns it?

You do. The site and the domain are in your name, not ours. Hosting is included and nothing renews unless you ask. If you ever want to move it, you get every file.

04 How do I make changes?

Text or email me the change and it's live the next business day. The first 30 days are free. After that, unlimited changes come with any monthly plan, from \$250 a month, cancel anytime.

05 When do I pay?

Half (\$1,250) when you say go, the rest (\$1,250) when the site is live. You've seen the homepage before paying anything.

06 What if the brands I carry change?

Then the site changes with it. Product pages are built to swap, and I'll redo them before launch if your lineup changes.
